

AJOSE DAMILARE

UI/UX Designer & Front-End Developer

+234 905 942 8941 | ajosedare4u@gmail.com | ajose-portfolio.vercel.app/ | [LinkedIn](#)

PROFESSIONAL SUMMARY

Impact-driven UI/UX Designer and Front-End Developer with a proven record of building digital products that move business metrics — not just pixels. Delivered a national voting platform for CeraVe Nigeria that attracted 70,000+ participants in under three weeks, earning recognition as the Best Campaign of 2026. At Konga Group, drove a 35% lift in category sales through targeted UX improvements and launched Konga FM's digital presence, boosting brand awareness by 12%. Combines deep product thinking with hands-on engineering in React and Next.js to ship experiences that convert and retain users. Available for senior remote roles at global consumer, beauty, and e-commerce brands.

KEY ACHIEVEMENTS

- ▶ **Best Campaign of 2026:** CeraVe CerAwards Nigeria: 800 submissions & 70,000 voters in 2–3 weeks via a custom-built web voting system.
- ▶ **+35% Category Sales:** Konga.com UX redesign produced measurable revenue growth, praised by executive leadership.
- ▶ **+12% Brand Awareness:** Designed and launched Konga FM's digital presence, placing the brand at the forefront of online radio audiences.

PROFESSIONAL EXPERIENCE

UI/UX Designer & Web Developer · **CeraVe Nigeria — L'Oréal Dermatological Beauty** 2026
Lagos, Nigeria: Contract / Campaign

- ▶ Architected and developed the CerAwards 2026 campaign website and end-to-end digital voting system from the ground up using React and Next.js, ensuring a seamless and secure user experience at scale.
- ▶ Engineered a high-availability voting infrastructure that processed 70,000+ unique voter interactions and 800 campaign entries within a 2–3 week campaign window — zero critical downtime.
- ▶ Collaborated with brand and marketing stakeholders to align digital experience with L'Oréal's global brand guidelines, translating campaign objectives into pixel-perfect, conversion-optimised interfaces.
- ▶ Delivered the project on a compressed timeline, resulting in CerAwards being recognised as the Best Digital Campaign of 2026 — a landmark outcome for the L'Oréal Dermatological Beauty division in Sub-Saharan Africa.
- ▶ Applied UX research, rapid prototyping, and user testing to refine the voting journey, reducing drop-off and maximising completion rates across mobile and desktop.

UI/UX Designer & Front-End Developer · **Konga Group** 2023 – Present
Lagos, Nigeria: Full-Time

- ▶ Led the end-to-end redesign of the Konga Group corporate website — from UX research and information architecture to high-fidelity prototypes and production deployment.

- ▶ Identified and implemented targeted UX improvements across the konga.com e-commerce platform (category navigation, product discovery, checkout flow), contributing to a verified 35% increase in category sales — a result praised at the business leadership level.
- ▶ Designed and built Konga FM's brand-new digital platform, establishing an online presence for the radio brand that drove a 12% uplift in business awareness, evidenced by audience growth metrics and stakeholder testimonials.
- ▶ Conducted usability testing, heatmap analysis, and A/B testing to continuously iterate on design decisions, ensuring every change was backed by quantitative data.
- ▶ Maintained and evolved the Konga Group design system in Figma, enabling faster, more consistent product delivery across multiple squads.
- ▶ Collaborated cross-functionally with product managers, engineers, and marketing teams in an Agile environment to deliver high-quality releases on schedule.
